

Hosting a Bridging The Gap Rain Barrel Workshop

Below is the basic information for hosting a Bridging The Gap rain barrel workshop:

- **Cost of workshop is \$45 per barrel.** You may submit one payment to Bridging The Gap or you may have each participant pay separately. Please make checks out to "Bridging The Gap." We strongly suggest you collect payment in advance to avoid no-shows.
- **Rain barrel workshops require a minimum of 20 barrels sold** (either by 20 participants with one barrel each, or fewer participants with multiple barrels) with no upper limit on number of barrels made. For instance, 20 people may make a total of 37 barrels. If you have fewer than the minimum number please consider attending a workshop hosted at our 3 Trails Community Recycling Center.
- **Workshop will last about one hour.** This includes time for questions and answers.
- **Please plan for workshop to be inside or under cover.** Weather and exposure play a large factor in the success of a workshop.
- **Rain barrel workshops require two electrical outlets** to run power tools.
- **All power equipment, rain barrel supplies and handouts will be supplied.**
- **You will need to arrange for the transportation of barrels** from the 3 Trails Community Recycling Center to your workshop. Plan on picking up barrels about one week before your workshop. The hours and location for the 3 Trails Community Recycling Center where you will pick up barrels can be found at <http://www.bridgingthegap.org/egap.php?id=114>.
- At end of the workshop, participants can expect to take home a fully-functioning, finished barrel!
- The 55 gallon barrels are white, 23 inches in diameter and 36 inches tall.

Additional information about rain barrels can be found on our website at <http://www.bridgingthegap.org/egap.php?id=133>.

Beau Baker is a an accredited rainwater catchment systems professional who has taught hundreds of people in the Kansas City area how to make rain barrels. His goal is to provide workshop attendees with the confidence and knowledge to make their own.

Please feel free to contact Beau with any additional questions at 816-561-1061, ext. 120 or beau.baker@bridgingthegap.org.

Thank you for your interest in hosting a rain barrel workshop!

Workshops are a program of Bridging The Gap with support from PepsiAmericas
